

CLIMATE CHANGE PODCASTS

<u>Mother's of Invention</u>	Celebrating amazing women doing remarkable things in pursuit of climate justice. Each episode talks to women and men taking action against climate breakdown across the world. Hosted by Ireland's first female president Mary Robinson and comic Maeve Higgins, Mothers of Invention is funny, informative and inspiring.
<u>BBC's Costing the Earth</u>	Fresh ideas from the sharpest minds working toward a cleaner, greener planet.
<u>Climate Cast</u>	MPR News meteorologist Paul Huttner with the latest research on our changing climate.
<u>Climate Conversations</u>	Climate change podcast from MIT Climate, an online community connecting questions to answers, research to solutions, and knowledge to action.
<u>Climate Cash</u>	WWF Australia's 3-part podcast on how climate change impacts are threatening South East Asia and the Pacific region. The podcasts examine what role Australia can play in building resilience, ensuring economic stability and creating sustainable growth opportunities in the region.
<u>Terrestrial</u>	Host Ashley Ahearn travels through the USA to bring listeners stories about people making personal choices in the face of environmental change.
<u>Green Tech Media, the Energy Gang</u>	A weekly digest on energy, cleantech and the environment, mostly US based.
<u>Powerhouse, Watt it Takes</u>	Featuring founders & CEOs of innovative companies in clean energy & mobility.
	And a longer list of more climate change podcasts is <u>available here</u> .
